

Easy Audio and Visual Communication

The Yealink SIP-T58W with camera is a simple-to-use smart business phone that provides an enriched HD audio and video calling experience for business professionals. This smart business phone enables productivity-enhancing visual communication with the ease of a standard phone. With the optional Yealink Bluetooth handset BTH58, users are free to move around when on a call – no more missed calls when they leave their desk. With a range of up to 10 meters (30 feet), the Yealink Bluetooth handset offers more office flexibility for users. Based on the Android 9.0 operating system, the SIP-T58W with camera adopts a new user interface, which is more concise and business, greatly improving user's work efficiency. Furthermore, the SIP-T58W with camera integrates with IP video intercom systems from major vendors in the market, delivering true cost-efficiency to customers.

Key Features and Benefits

Enjoy Wireless Freedom

The Yealink SIP-T58W with camera supports the optional brand-new Bluetooth wireless handset BTH58, providing up to 17 hours of talk time and 46 hours of standby time, allowing the user to leave the desk and continue talking, not only provides crystal clear voice communications but also adds flexibility for office workers.

A Better User Experience with Android 9.0 System

Based on Android 9.0, the Yealink SIP-T58W with camera not only inherits the advantages of the previous generation, but is also compatible with more third-party apps, bringing more convenience to users. Administrators can easily install additional Android applications to improve collaboration and productivity. The Yealink's newly designed user interface is more fluent, business, and easier to use.

HD Audio and HD Video

The Yealink SIP-T58W with camera includes the latest version of Yealink Optimal HD Voice technologies, including the Yealink Noise Proof Technology and supports the Opus codec, which helps maximize the acoustic performance of the phone's handset, headset and especially the speakerphone. And its hearing aid compatible (HAC) handset helps the person who is with hearing loss to hear the voice more clearly. With the dynamic, removable five-megapixel HD camera CAM50, you can connect into video conferences directly from your desk. The camera parameters such as exposure, noise point, definition, white balance, and field of view are better than those of the previous generation phone.

Improved Security Performance

The Yealink SIP-T58W with camera adopts Arm TrustZone technology, which can greatly improve the security of various ARM-based data and applications, and establish a reliable security defense system. The Android version has been upgraded to add firmware and data encryption for more security. Moreover, the phone's authority management and control is stricter and more specific.

- Runs Android 9.0
- 7 inch (1024 x 600) capacitive adjustable touch screen
- Supports Yealink Bluetooth Handset BTH58 (Optional)
- 720p30 HD video
- Optimal HD audio, Yealink Noise Proof Technology
- Yealink's SDK (Software Development Kit)
